

The substitute sequence listing (SEQ ID NOs: 1-22) is in proper format and is identical to SEQ ID NOs: 1-22 of the original sequence listing. SEQ ID NO: 23 was omitted from the paper copy and disk copy submitted in the original sequence listing. Applicants have added SEQ ID NO: 23 to the substitute sequence listing. Support for SEQ ID NO: 23 is found in the specification as originally filed on page 59, line 13. No new matter is added.

Applicants state that the paper copy of the substitute sequence listing inserted into the specification and the computer-readable form of the substitute sequence listing on 3.5-inch diskette are identical and meet the requirements of 37 CFR 1.825. In addition, Applicants state the substitute sequence listing does not include new matter.

In view of this amendment, the enclosed substitute sequence listing and computer-readable form of the substitute sequence on diskette, it is respectfully submitted that this application is in condition for examination on the merits.

If a telephone conference would be of assistance in furthering the prosecution of the application, Applicants' undersigned attorney requests that he be contacted at the telephone number provided below.

Respectfully submitted,

William D. Schmidt
